

Ndifon Nina

COMPUTER ENGINEERING STUDENT

ndifon.nina@gmail.com · 653761228 · github.com/Ndifon-Nina · linkedin.com/in/ndifon-nina

Bamenda, North West Region, Cameroon

PROFESSIONAL SUMMARY

Computer Engineering student (Level 300) at NAHPI and HTTTC ENSET, University of Bamenda, specializing in cybersecurity and software development. I learn by building: I make tools, break them, find out why, and fix them — that habit produced a scam-reporting platform for Cameroon (MoMoSafe237) and a website security scanner (BlindSpot).

EDUCATION

National Higher Polytechnic Institute (NAHPI), University of Bamenda 2025 – Present · Expected 2029
B.Eng., Computer Engineering — Level 300

Higher Technical Teacher Training College (HTTTC-ENSET), University of Bamenda 2025 – Present · Expected 2028
DIPET I, Fundamental Computer Science — Level 300

PROJECTS

MoMoSafe237 — Scam Reporting Platform Python · Flask · SQLite

- Built a platform that detects scam messages and numbers in easy French and English, catches customs/delivery-fee scams, and lets users dispute false reports
- Shipped an admin panel with login protection, rate limiting, and scam report verification

BlindSpot — Web Security Scanner Python · Flask

- Built a scanner that detects missing security headers, exposed `.env` / `.git`, directory listing, and data leaks, then explains each fix

EXPERIENCE

Technology Intern Aug – Oct 2026

[Neltech Cameroon](#) · Technology internship — mostly networks and some cybersecurity

- Focused mostly on networks, and also covered some cybersecurity work
- Today we built a registration and login form to practice hacking and security testing
- Worked with teammates on backend/database code in PHP

Deloitte Cyber Job Simulation (Forage) 2026

- Completed a scenario-based phishing simulation and delivered a written security analysis

SKILLS

Python (Flask, SQLite)

Web Security

HTML & CSS

Git / GitHub

Databases

Scam & Phishing Awareness (EN/FR)

Teamwork

Communication

CERTIFICATIONS

- Google Cybersecurity — Foundations (in progress · Google Cybersecurity Certificate)
- Introduction to Cybersecurity — Cisco Networking Academy (2026)
